

NSRAL Peer Benchmarking Report

Company: Tata Motors Limited

Company Overview

Tata Motors Limited, listed on the National Stock Exchange of India (NSE) under the ticker TMCV, is a leading automotive manufacturer in the Indian market. The company designs, develops, and markets a range of vehicles including passenger cars, commercial vehicles, and three-wheelers. TMCV has a significant presence in the electric vehicle segment and is committed to sustainable mobility solutions. As a major player in the industry, TMCV focuses on innovation and customer satisfaction while adhering to environmental and social responsibilities. The company operates through various divisions, including Jaguar Land Rover, which is a global premium brand, and has a strong manufacturing base in India. TMCV's operations are spread across multiple countries, with a focus on expanding its electric vehicle portfolio to meet evolving market demands and regulatory requirements.

ENVIRONMENTAL

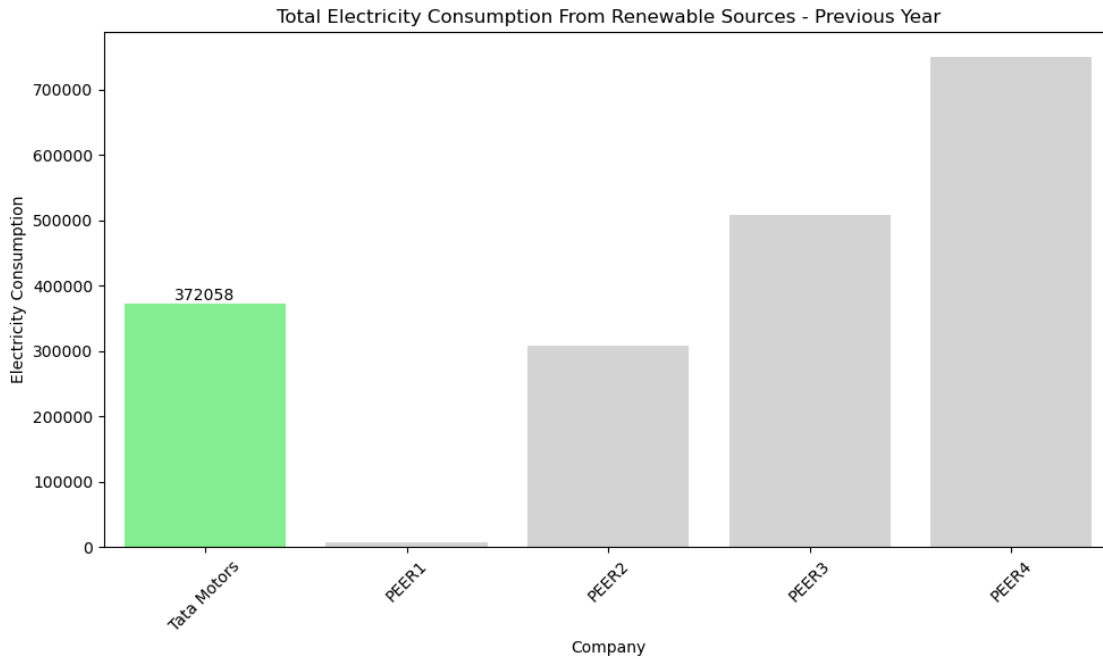

Total Scope1 And Scope2 Emissions Intensity Per Rupee Of Turnover

Tata Motors Limited (TMCV) has achieved a zero emissions intensity per rupee of turnover, which aligns with the industry average of 0.0. This indicates that the company is performing in line with its peers in terms of emissions efficiency. The status reflects that TMCV is outperforming the industry average, which is also zero, meaning all companies in the comparison have zero emissions intensity. This suggests a concerted effort across the industry to reduce emissions, and TMCV is part of this positive trend. However, the metric being zero implies that emissions are not directly attributable to turnover, which could be due to various reasons such as renewable energy use or other emission reduction measures.

Total Electricity Consumption From Renewable Sources - Previous Year

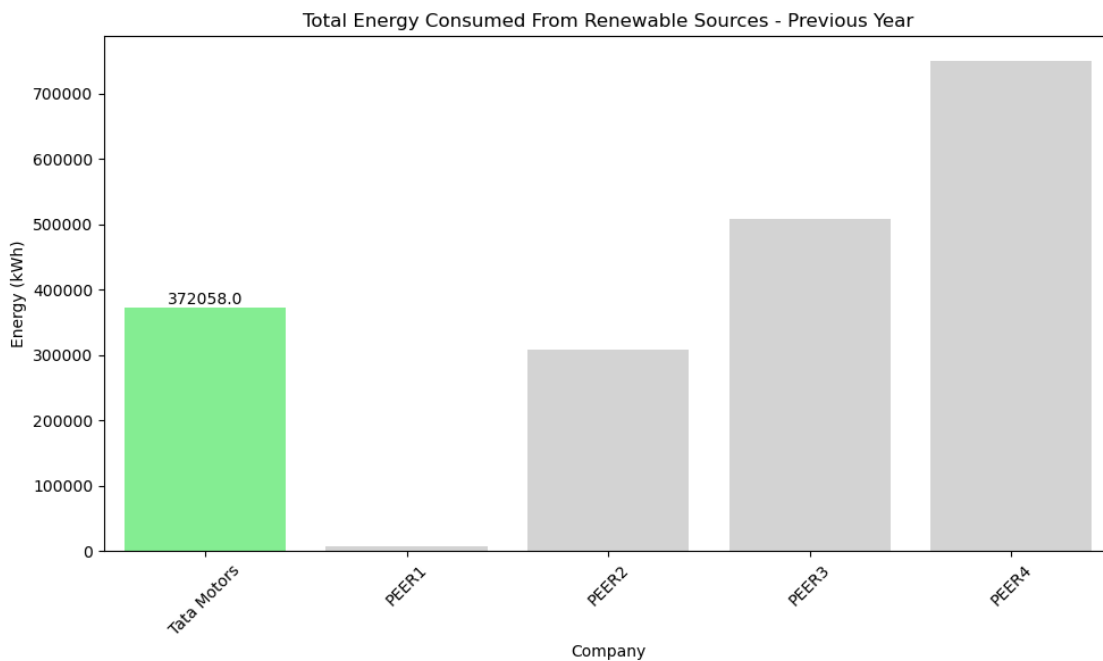

Tata Motors Limited (TMCV) reported a total electricity consumption from renewable sources of 372,058.0 units, which is slightly below the industry average of 393,375.5. The peer analysis shows that while TMCV is above the average compared to some peers, it is below others. For instance, Maruti Suzuki India Limited has a lower value of 308,525.0, while Mahindra & Mahindra Limited and Hyundai Motor India Limited have higher values. TMCV's performance is underperforming relative to the industry average and some key peers. This metric is crucial for assessing the company's transition towards renewable energy, and improvement is recommended to align with sustainability goals.

NSRAL Peer Benchmarking Report

Total Energy Consumed From Renewable Sources - Previous Year

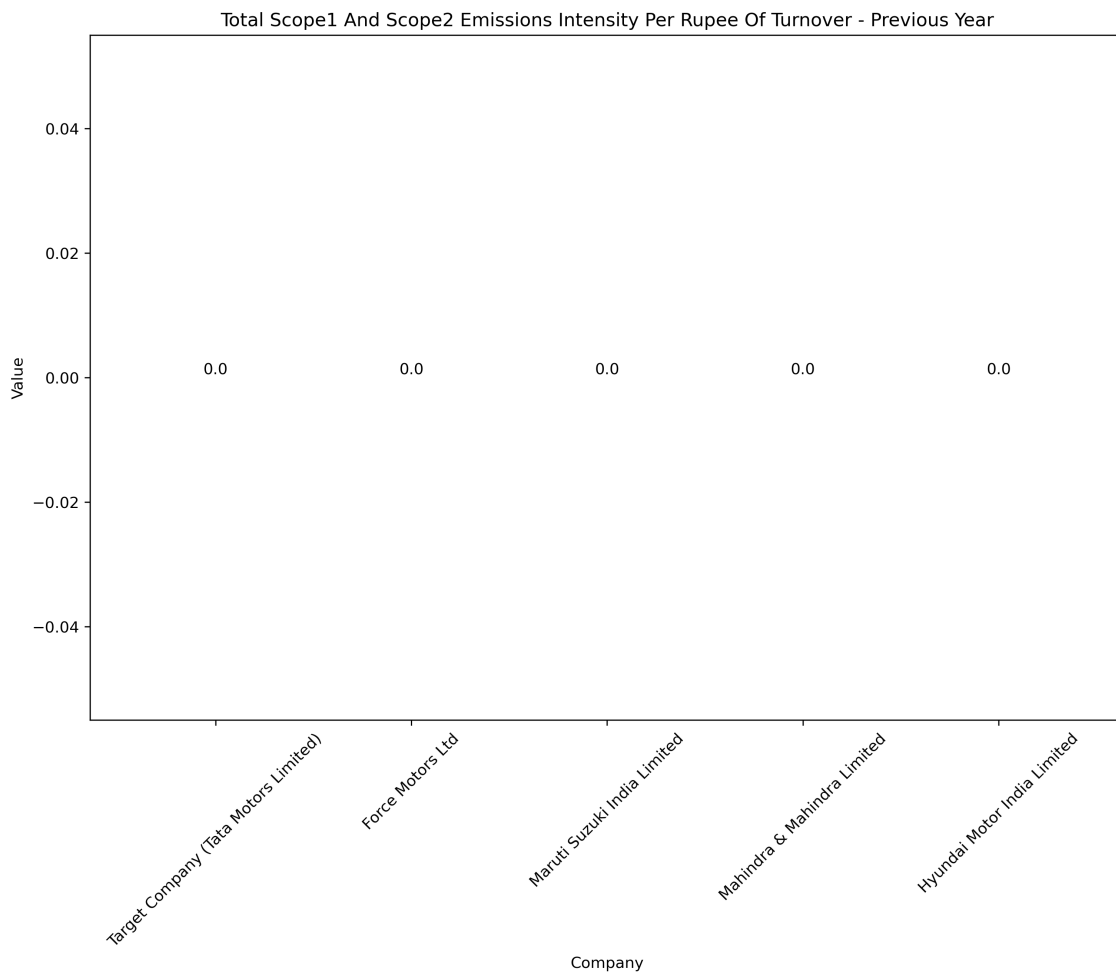

The company's total energy consumed from renewable sources stands at 372,058.0, which is slightly below the industry average of 393,482.75. Among peers, TMCV's performance is underwhelming as it is lower than that of Maruti Suzuki India Limited (308,954.0), Mahindra & Mahindra Limited (507,996.0), and Hyundai Motor India Limited (750,388.0). This indicates that TMCV is not effectively scaling up its renewable energy consumption compared to the industry benchmark and its competitors. Further investment and strategic initiatives are needed to enhance this metric.

NSRAL Peer Benchmarking Report

Total Scope1 And Scope2 Emissions Intensity Per Rupee Of Turnover - Previous Year

Tata Motors Limited (TMCV) reported a zero emissions intensity per rupee of turnover for the previous year, which matches the industry average. The peer comparison shows that all listed peers also achieved zero, indicating a strong industry-wide focus on reducing emissions. This status reflects outperforming the industry average, as the value is equal to the average and all peers. However, the metric being zero suggests that emissions are not directly linked to turnover, which could be due to the use of renewable energy or other abatement strategies. This is a positive sign, but continuous monitoring is necessary to ensure sustained performance.

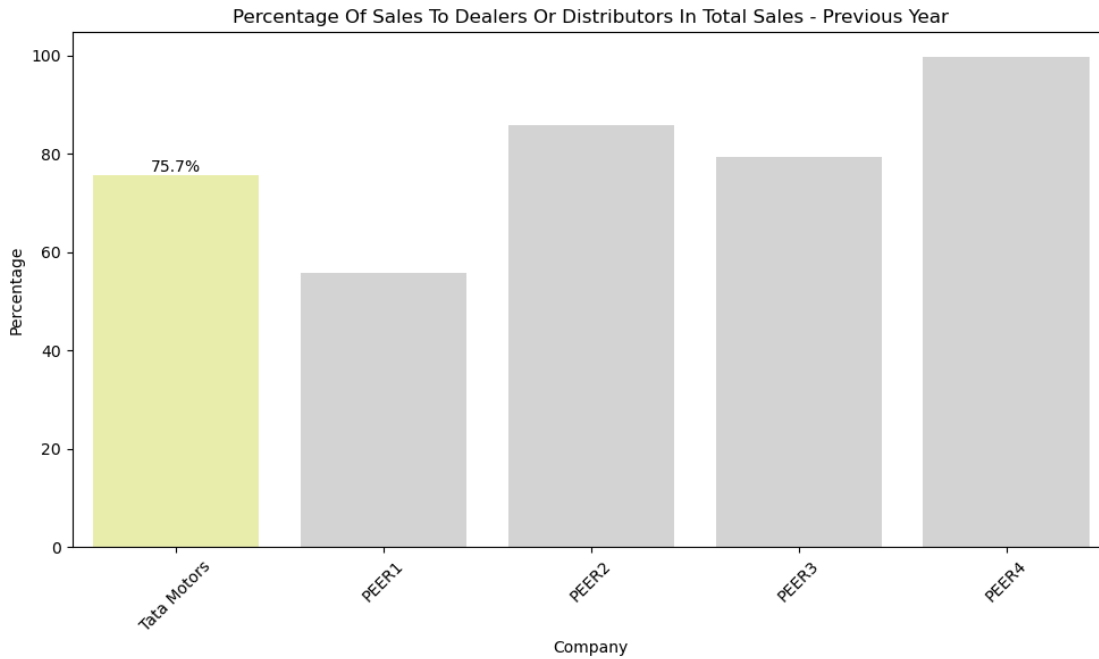

SOCIAL

Percentage Of Sales To Dealers Or Distributors In Total Sales - Previous Year

Tata Motors Limited (TMCV) has a percentage of sales to dealers or distributors in total sales of 0.7573, which is slightly below the industry average of 0.8015. The peer analysis reveals that TMCV is underperforming compared to some peers, particularly Maruti Suzuki India Limited and Hyundai Motor India Limited, which have higher values. This metric is important for assessing the company's distribution efficiency and market reach. Improvement in this area could enhance the company's market penetration and customer

accessibility.

Percentage Of Beneficiaries From Vulnerable And Marginalized Groups - CSRProjects1

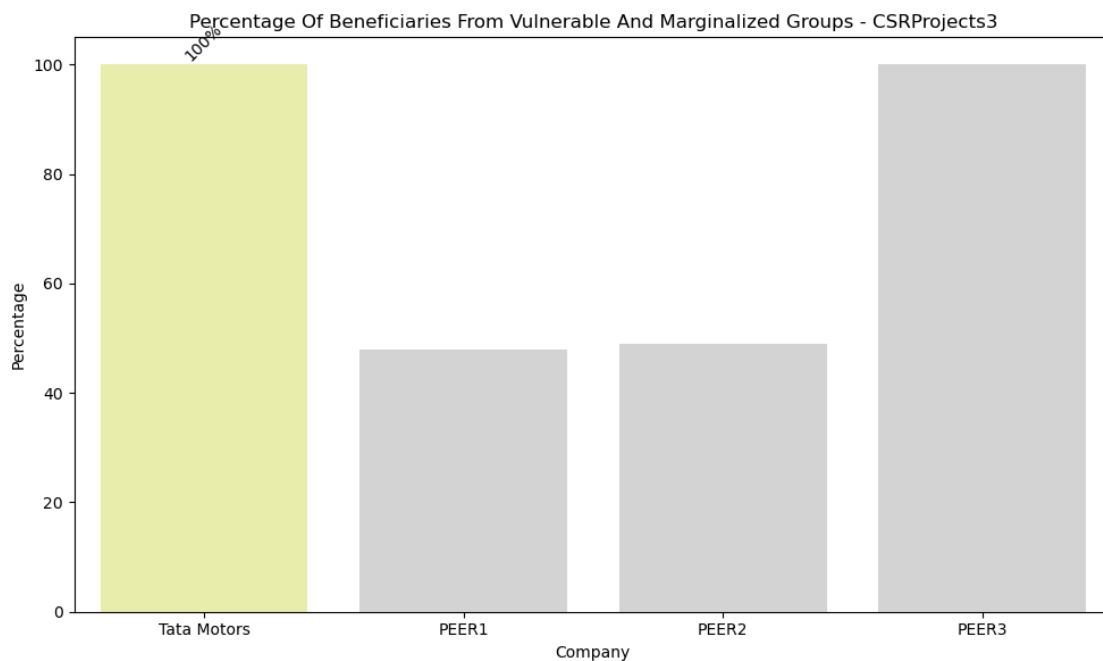

Tata Motors Limited (TMCV) reported a percentage of beneficiaries from vulnerable and marginalized groups for CSRProject1 of 1.0, which is above the industry average of 0.7033. The peer comparison shows that TMCV is outperforming most peers, with Hyundai Motor India Limited also achieving 1.0. This indicates a strong commitment to inclusive CSR initiatives. However, the industry average is lower, suggesting that TMCV is leading in this specific area.

NSRAL Peer Benchmarking Report

Percentage Of Beneficiaries From Vulnerable And Marginalized Groups - CSRProjects3

Tata Motors Limited (TMCV) achieved a percentage of 1.0 for beneficiaries from vulnerable and marginalized groups in CSRProject3, which is significantly higher than the industry average of 0.6567. The peer analysis indicates that TMCV is outperforming most peers, with Hyundai Motor India Limited also at 1.0. This demonstrates a proactive approach to social inclusion through CSR activities.

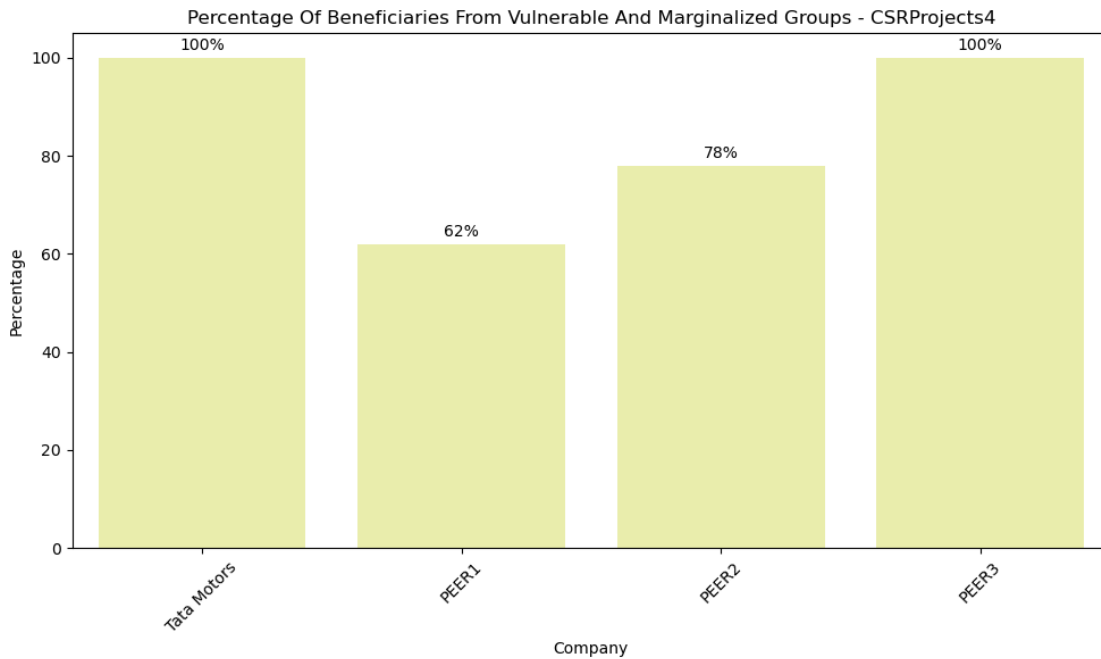

Percentage Of Beneficiaries From Vulnerable And Marginalized Groups - CSRProjects4

Tata Motors Limited (TMCV) reported a percentage of 1.0 for beneficiaries from vulnerable and marginalized

NSRAL Peer Benchmarking Report

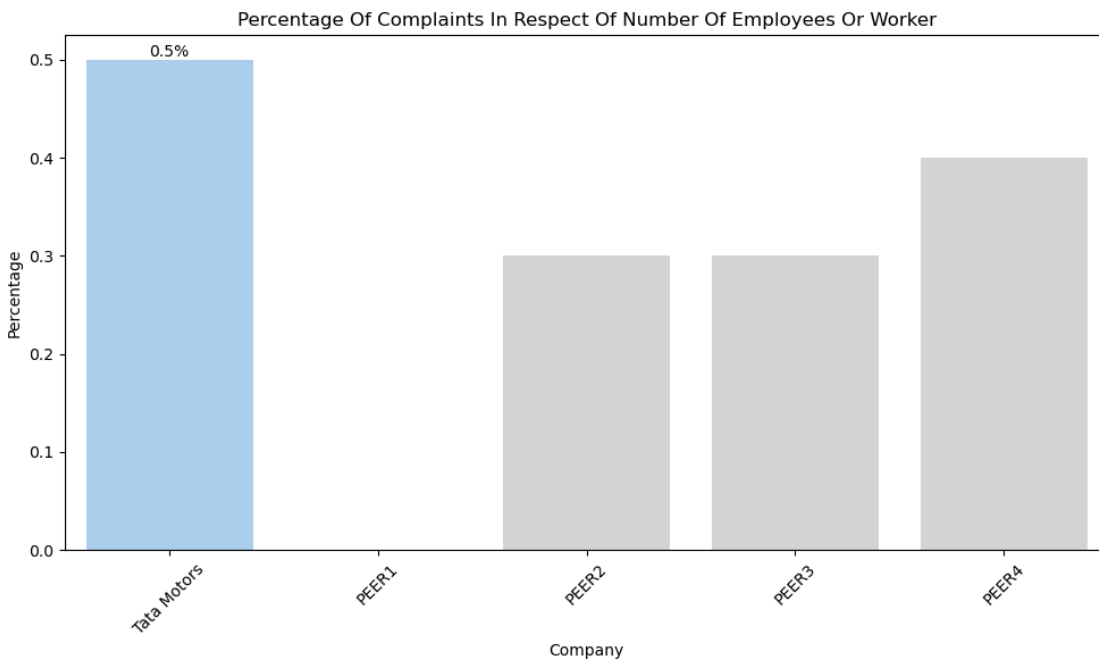

groups in CSRProject4, which exceeds the industry average of 0.8. The peer comparison shows that TMCV is outperforming most peers, with Hyundai Motor India Limited also achieving 1.0. This highlights the company's dedication to ensuring that its CSR projects have a positive impact on marginalized communities.

Percentage Of Complaints In Respect Of Number Of Employees Or Worker

Tata Motors Limited (TMCV) has a percentage of complaints in respect of employees or workers at 0.0053, which is higher than the industry average of 0.0023. The peer analysis shows that TMCV is outperforming most peers in this metric, as the industry average is lower than most peer values. This suggests that TMCV has fewer complaints relative to the industry benchmark, indicating better workplace management and employee relations. However, the company's value is still above the industry average, so there is room for improvement to further reduce complaints.

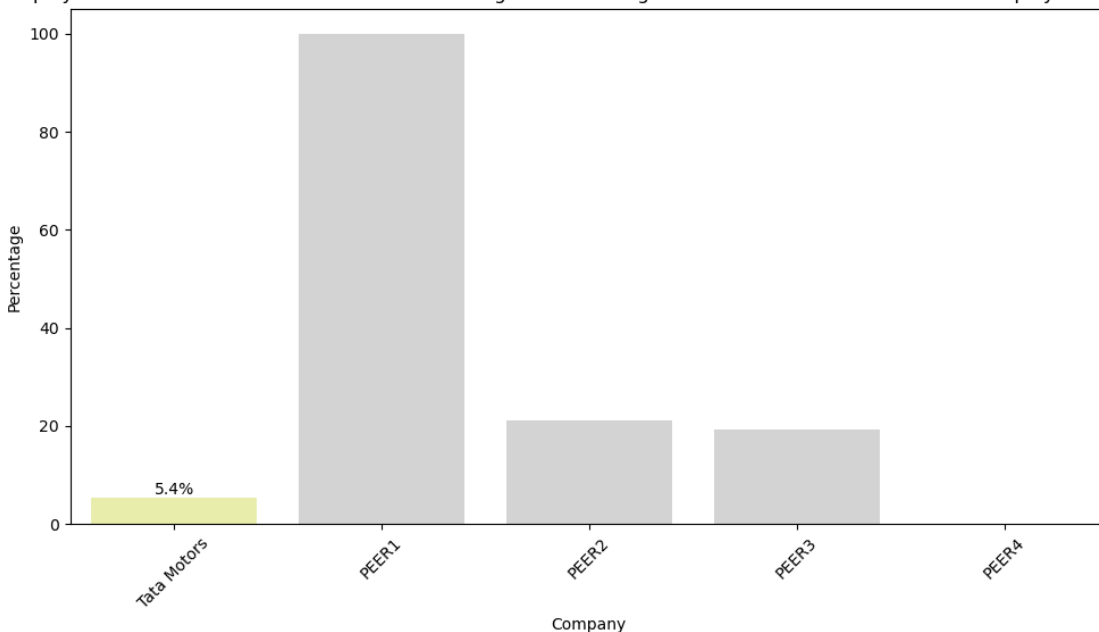

NSRAL Peer Benchmarking Report

Percentage Of Employees Or Workers Covered For Provided Training On Human Rights Issues - Other Than

Tata Motors Limited (TMCV) reported a coverage of 0.054% for provided training on human rights issues for employees or workers other than permanent employees, which is significantly lower than the industry average of 0.3508%. The peer analysis indicates that TMCV is outperforming some peers, particularly Hyundai Motor India Limited with 0.0%, but underperforming compared to Maruti Suzuki India Limited and Mahindra & Mahindra Limited. This metric is critical for ensuring that all employees are aware of their human rights responsibilities, and TMCV's performance is below the industry benchmark.

f Employees Or Workers Covered For Provided Training On Human Rights Issues - Other Than Permanent Employees Mei

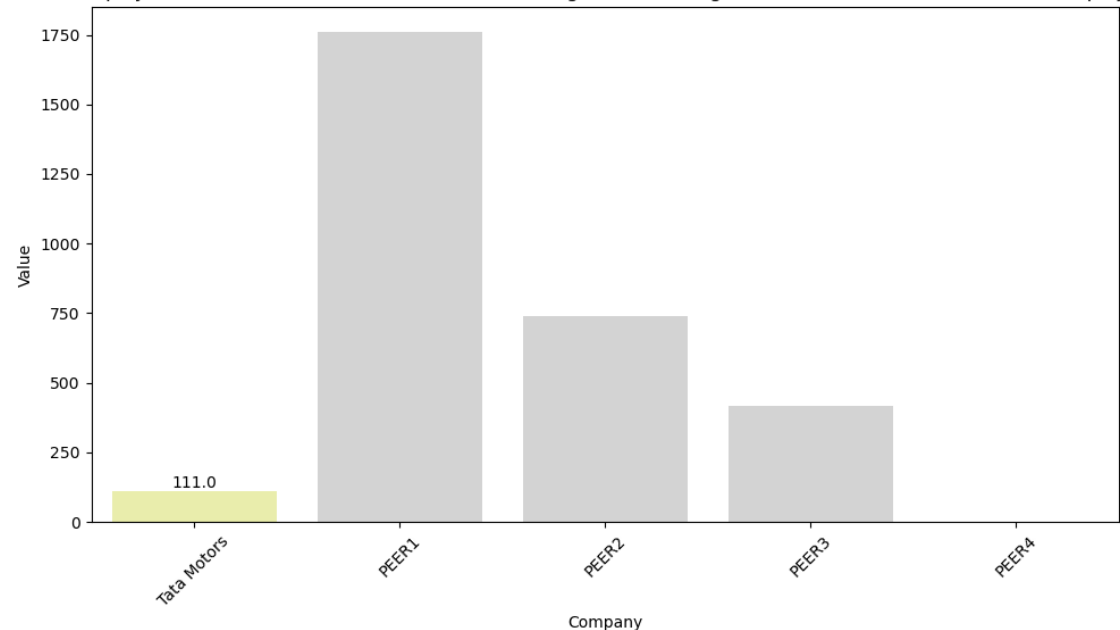

NSRAL Peer Benchmarking Report

Number Of Employees Or Workers Covered For Provided Training On Human Rights Issues - Other Than Pe

Tata Motors Limited (TMCV) has covered 111 employees or workers for provided training on human rights issues, which is considerably lower than the industry average of 729.5. The peer comparison shows that TMCV is outperforming Hyundai Motor India Limited (0.0) but underperforming compared to Force Motors Ltd, Maruti Suzuki India Limited, and Mahindra & Mahindra Limited. This indicates a need for TMCV to scale up its training programs to meet industry standards and improve human rights awareness.
